

Quantela

Your Outcomes, Delivered.

Founded in 2015

Founded in 2015 with a mission to help cities digitize their infrastructure through intelligent dashboards, Quantela quickly grew into the world's second-largest provider of Smart City Platforms. While our journey began with urban innovation, we soon discovered the true strength of our platform: the ability to integrate diverse data sources and deliver outcome-driven insights. Today, that same data intelligence powers transformation far beyond cities enabling governments, enterprises, and institutions across multiple industries to make smarter, faster decisions with measurable impact.

The Quantela Platform

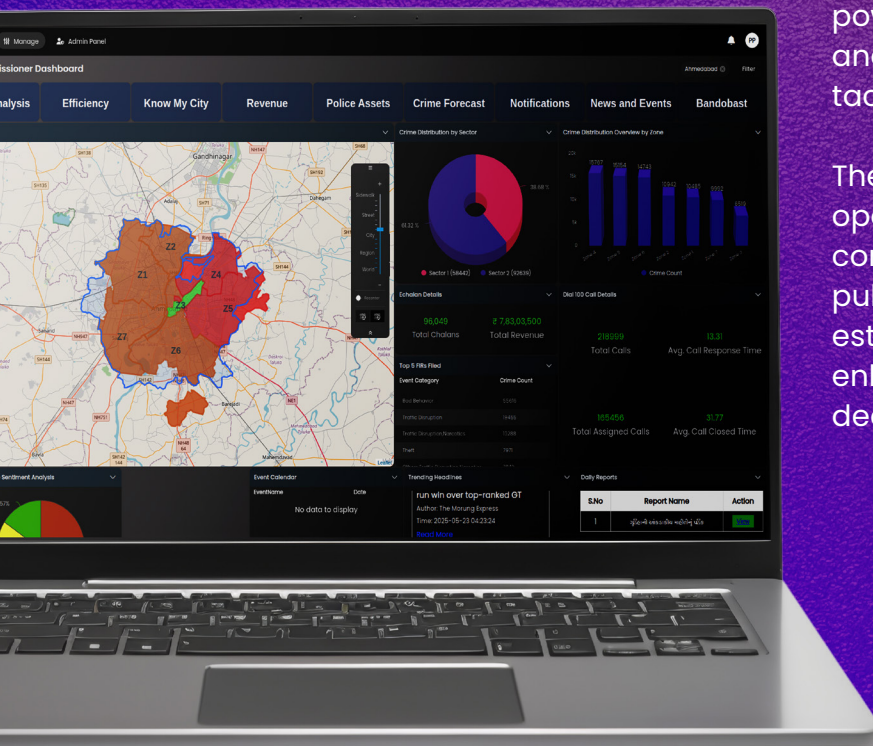

The Engine Powering our Solutions

The Quantela Platform is a purpose-built, outcomes-as-a-service engine designed to power our solutions : Smart City initiatives, Retail Media & Ad Networks (RMAN/DOOH), and e-Government services.

It provides cities, enterprises, and communities with a smarter, faster, and more cost-effective way to digitize infrastructure seamlessly integrating data from IT, OT, IoT, e-Gov, and SCADA systems.

At its core, the platform harnesses the power of AI, real-time video analytics, and data insights to help administrators tackle data challenges.

The Quantela Platform transforms operations across buildings, gated communities, education campuses, public spaces, and commercial establishments—improving efficiency, enhancing security, and driving smarter decision-making at every level.

Key Capabilities

Unified Data Integration

Connects IoT devices, enterprise databases, APIs, and legacy systems into a single digital ecosystem.

Low-Code/No-Code Simplicity

Empowers both technical and non-technical users to manage data pipelines and build solutions easily.

Modular Architecture

Enables advanced data cleansing, transformation, and real-time analytics to derive actionable insights quickly

Automation and Scalability

Supports large-scale deployments with high availability, fault tolerance, and extensibility built in.

With its robust, data-driven foundation, the Quantela Platform makes intelligence accessible, automates complexity, and empowers organizations to move from data to outcomes.

Quantela: Turning Data into Actionable Outcomes

Industry Solutions

Purpose-Built for Cities,
Governments, and
Retail Networks

>> Retail & Media Ad Networks (R&MAN) Solutions

Quantela's R&MAN solution improves ad revenue and retail performance by providing our customers with insights and data-driven recommendations to optimize digital advertising networks. Quantela streamlines campaign management, site selection, and ad sales while ensuring proof of play verification. Additionally, we analyze retail data to generate insights that boost conversion rates from visitors to buyers.

>> Government Solutions

Quantela's comprehensive, all-in-one government solutions designed to streamline operations, enhance decision-making, and improve citizen services.

Land Governance

Simplify land registration, title transfer, valuation, and land use with data-driven insights for secure, efficient service delivery.

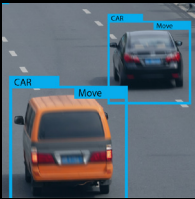

eGovernance

Streamline digital service delivery and administrative workflows. Citizens can easily access essential services, raise grievances, and track requests ensuring greater accountability, responsiveness, and public satisfaction.

Citizen Service Centres

Optimize service delivery and constituent engagement through consolidated performance tracking, permits management, and real-time service insights.

Smart Cities

Boost urban efficiency with smart monitoring for traffic, waste, air quality, water systems, and public safety, creating cleaner, safer, and more resilient cities.

Why Quantela

Interoperability

The Quantela platform connects multiple data sources to deliver deeper, real-time insights into your city or community.

End-to-End Solution Provision

Quantela combines the strengths of urban service providers and traditional tech companies to provide end-to-end support for achieving your goals.

Future-Proof Solutions

Quantela solutions are agile by design, helping you leverage existing infrastructure while integrating new technologies to unlock its full potential.

Outcomes Assurance

At Quantela, we're accountable to your success. If we don't deliver value and results, you don't pay.
